Experinces:

2014-2016:

I Volunteerd as a Graphic Designer in RBCs Team in Damascus University.

2017:

with the begining of it I was learning Frontend development and in the last three months of it I have been coded some projects as a freelancer in Frontend Web Development industry using Bootstrap, Sass along with HTML/CSS.

2018-Present:

I have worked in WEB INJAZ Company as a Web Developer, in the first few months I was in the Fronend department working with HTML5/CSS3, Sass and Bootstrap 3.37 and 4.1 and JQuery, and in the middle of the year I learned React js and React Native Cross-Platform Mobile Application development and in the last few months I moved to the Mobile Application department in my company.
