Abilities:

- Building full websites.
- Building reusable plugins, widgets and components.
- Writing documentations.

- Building Restful APIs.
- Learning new technology.
- Solving problems.
- Working in team.

Education:

- Student in the 4th year at Damascus University, Faculty of Computer Engineering.

Projects:

- Css library:
Building Css library to simplify the colouring and styling process
and make it reusable as mush as possible.
Techniques: Sass and Css variables with Bootstrap 4 framework as a dependency.
Package: https://www.npmjs.com/package/wi-framework
Docs: https://webinjaz.gitbook.io/framework

- MERN Stack website:
Building a website for 'Web Injaz' framework and Build Tool, using Node js with Express js
to build the server side APIs, React js for the client side and MongoDB as a database.
Website: https://webinjaz.herokuapp.com

- GraphQL with React js and Apollo client:
Build simple app to fetch github trending repositories from Github V4 GraphQL API,
Using React js with Apollo Client.
Website: https://wael-zoaiter.github.io/react-apollo-test/

- React js with Redux js:
Building a simple website to show some APIs data,
Techniques: React js and Redux js.
APIs: The New York Times API, Movies DB API and Google book API.
Website: https://wael-zoaiter.github.io/daily-world/

- Restful API with Node js and Express js:
Building Restful API to solve the 'above the fold content' SEO problem,
Techniques: Node js with Express js.
Github: https://github.com/wael-zoaiter/critical-css-api

- Node js with Socket IO:
using Node js as server side language with Socket io to create the Real-Time connection
to build simple react-time chat application and deploy it to heroku.com
Demo: https://chat-w-app.herokuapp.com

- PHP (Yii2) widgets:
Building over (10+) reusable widgets using yii2 framework to automate the work,
Widgets: (Sidebar, SocialMediaShareButtons, Navbar, Nav, Dropdown and more).

- Writing documentations:
Write over (3+) documentations using GitBook or MarkDown(md) to explain to the users and other
developer how to use or develop the project,
Docs: (WebInjaz css framework, Critical Css API, Yii2 widgets and more).

- Graphic and Web Design:
using Adobe illustrator and Photoshop to create simple designs in RBCs Team and Web Injaz company.
 https://github.com/wael-zoaiter/graphic-design

Experience:

- 2014 - 2016:   Graphic Designer at RBCs Team.

- 2017:   Freelance Frontend web developer.

- 2018 - Present: Web developer at Web Injaz.
