Experinces:

2014-2016: I Volunteerd as a Graphic Designer in RBCs Team in Damascus University,
Designing posters, covers, and editing others working with Adobe photoshop
and Adobe illustrator.

2017: With the begining of the year, I was learning Front-end web development
and in the last three months of it I have been coded some projects
as a freelancer in this field using Bootstrap, Sass along with HTML/CSS and JQuery.

2018-Present: I have worked in WEB INJAZ Company as a Web Developer,
in the first few months I was in the Front-end department working with
HTML5/CSS3, Sass and Bootstrap 3.37 and 4.1 and JQuery,
and in the middle of the year I learned React js and React Native
"Cross-Platform Mobile Application development" and in the last few months
I moved to the Mobile Application department in my company.
